SUBJECT: Nash Stream Forest ATV Enforcement

Off Highway Recreational Vehicle (OHRV) enforcement on the West Side Trail and Kelsey Notch has been limited due to manpower needed to patrol for the amount of OHRV activity present in the high use areas of Coos County. Manpower is prioritized to respond to OHRV collisions, of which there were two in the Kelsey Notch Trail area over the summer. Five tickets were issued in the Nash Stream Forest for OHRV violations. No other law enforcement activity was relayed to me by the conservation officer whose assignment includes the Nash Stream Forest.
