I certainly hope the snow bank is higher and more well defined than that which is illustrated in this picture -
- as it seems to be a signage barrier only.

Please also ask the groomer to create a snow barrier [should be lots of available snow after this last storm]
and signage on the other end of my property as well. I appreciate the assistance.

Peter,

Here is the photo that mentioned earlier this morning. The club built up the snowbanks and posted signs leading onto your property. Our District 1 Supervisor, Clint Savage, spoke with Fish & Game and asked that they run some patrols in the area to ensure that sleds were not going through your road/property.

Clint is copied on this email. If you find something else going on you can email him or I. he has weekly contact with the club and can relay concerns to them faster than I typically can

Thanks

Chris
