Good evening and thank you for your message.

Issues related to road access for OHRVs are typically handled by the Department of Natural and Cultural Resources.

I have forwarded your message to Commissioner Stewart.

Best regards  
Taylor Caswell.

We live in south western New Hampshire and the OHRV tourist industry hasn't reached us yet. We have a neighbor who uses OHRVs as part of his sugar operation and we are all for them being used as farm tools and on private land with permission, however we are worried about the spread of OHRV tourism on any roads and would want local hearings and input if anyone tried to set up OHRV tourism in our area. We are also on the snowmobile Corridor 5, and while we are okay with them for the short snowmobile season, it would adversely affect our quality of life to have groups of OHRVs speeding through the Corridor all seasons of the year. Our understanding of these bills is that they strike a balance between landowners ability to use OHRVs and community rights and we would love your support on them.

Thanks  
Keith and Leslie Quarrier
