Re: Wheeled Off Highway Recreation Vehicle Crossing Permit Application – US-3, Pittsburg, NH

Thank you for submitting applications for wheeled off highway recreation vehicle crossing and connector permits on US-3, located at the intersection of Colburn Rd and River Rd in Pittsburg, New Hampshire. Our office has completed a field review of the proposed connector and crossing and found that the Department cannot issue permits at the proposed location due to the unreasonable skew across the highway within a 50 mph speed zone. Should you have any further questions or identify an alternate solution please feel free to contact the District One office.

Sincerely,

Philip L. Beaulieu, P.E.
District Engineer
NHDOT District One
