Hi Mr. Petrofsky,

the district has located several files that are responsive to your request - Please see the attached documents.

If you have other requests for documents please email me, or Phil Beaulieu in the District 1 Office.

Please note that some personal information was redacted from three files, per NH RSA 91-A:5, IV, as disclosure of would constitute an invasion of privacy.

If you have questions about the process or the rulings please call the District Office and ask for Phil Beaulieu.

Sincerely,

Richard Arcand

Thank you. Yes, I'm familiar with some of the declaratory rulings. Part of what I'd like to know is how they were taken into consideration. Let me know what you have. If you can't find any evaluation of the rulings/directives, or of the public comments, just let me know if there weren't any.

I appreciate it.
John

Hi Mr. Petrofsky,

We will look again and provide existing, responsive documents.

There is some information that may be relevant on this web page:

Hi Richard,

Thank you. I think there are a few things outstanding still. I believe there were three crossings in Pittsburg that were closed. This only captures one of them. Is that not the case?

Please also include any and all rationale provided for the other two closings, and if relevant, reopenings.

Also, I had requested any record of DOT's evaluation of comments and input regarding safety and the Colebrook 145 crossing. Finally, please include any evaluation or discussion of DOT directives in relation to the Colebrook 145 crossing.

Thank you.

John

Dear Mr. Petrofsky,

The NHDOT has completed our search for records that are related to your request for crossings on Route 145, and in Pittsburg, NH.

The responsive records we found are attached and we consider this request complete.

Please call or email if you have any additional questions, or any issues with the attached files.

Sincerely,

Richard Arcand

Hi Phil,

I am filing a 91-A request for all material related to the decision making process on the opening of the Rt. 145 crossing, as well as the closing of all three crossing in Pittsburg. It's in the public interest to know how these decisions are made, and which agencies are ultimately making the request. I would like to see any evaluation of safety and department declaratory rulings that took place in regard to said decisions.

I would like to make this request of all material held by DOT, DOS and DNCR.

Thank you.

John
