Dear Commissioners, Mount Washington Commission,

I strongly support the AMC's request to the Commission to:

- Incorporate a net zero emissions policy and adopt other sustainability measures including minimizing waste and reducing noise pollution, light pollution, and scenic impacts.
- Strengthen protection for alpine plant communities with policies supported by research.
- Evaluate the summit's visitor carrying capacity and ensure that the Master Plan's recommendations will not encourage visitation that exceeds that capacity.
- Enhance collaboration with the United States Forest Service and other stakeholders as the master plan is finalized and implemented

Regards,  
Anny Bedard
