I oppose the Lizzie Bourne Station proposed development.

The MWC conduct a thorough, independent, **Environmental and Climate Assessment (E&CA) of the Summit Region and the entirety of Mt. Washington. There are already too many folks on the trails; this proposed development would add further pressure on this fragile habitat.**

There must be a complete moratorium on any future expansion, development or construction of any kind **until the completion of the E&C Assessment** and the subsequent Master Plan.

Please reject the July 5, 2022 Draft Master Plan in its entirety and demand that no MWC Master Plan be written before a credible **Environmental and Climate Assessment** has been completed.

Thank you,

Gene Ward

Hollis NH
