

Oct 22, 2001

Dear Sirs,

Open

I am writing to say that I support traditional recreational uses in Nash Stream State Forest. Bear baiting, camp leasing, hunting and trapping should be allowed and their right protected.

As a member of the SPNHFF I was interested in having the land protected from development not closed to what many outdoor people enjoy doing. Open access is a New Hampshire tradition. Let's keep it that way.

Sincerely, John Ketcham
