Last year DOS approved the late riding hours in Warren. There are highway crossings and off-road connectors in Warren and the later use followed the same process for the on-highway riding hours. This was the process DOT and DOS went through last year and we would hope it was not changing. If this is solely a DOT decision and not DOS please let us know for the future.

Chris-

I am not aware of any on-road connectors that utilize state roadways in the town of Warren? There are off-road connectors and roadway crossings but neither would fall under the purview of NHDOS.

Thanks,

Caleb

Subject: Warren OHRV Extended Hours Request

Commissioner Quinn

Attached is a letter from the Warren Police Department supporting a request by the Mt Moosilauke ATV Club to have extended riding hours on July 12 and 13, as part of the Town's Old Home Day events. This request was approved by your Department last year.

This is the only other extended hours riding request that we anticipate to receive each year, other than Gorham/Berlin. The majority of the on-road areas in Warren are in the village area, and within the 30 mph speed zones.

Thank you for your consideration of this request.

Sincerely,

Chris
